

DHRUV PAHWA

+91 9653057566 | dhruvpahwa02@gmail.com | [LinkedIn](#) | [Github](#) | Lucknow, India

PROFESSIONAL SUMMARY

Data Science & AI graduate with a 9.6/10 CGPA and hands-on experience developing machine learning solutions, preprocessing pipelines, and deep learning models. Skilled in Python, SQL, Scikit-learn, PyTorch, Pandas, NumPy, and statistical analysis with experience taking ML workflows from data preparation and validation to deployment. Strong background in AI, data engineering, and analytical problem-solving.

EDUCATION

B.Sc. in Data Science and Artificial Intelligence

2023 – 2026

Christ (Deemed to be University), Delhi, India

CGPA: 9.6 / 10 | Merit Scholarship, Academic Excellence (2023–24 & 2024–25)

TECHNICAL SKILLS

Programming & Data: Python, SQL, R, Pandas, NumPy, Data Structures & Algorithms

Statistics & Analytics: Statistical Analysis, Exploratory Data Analysis, Feature Engineering & Selection, Data Preprocessing, Model Evaluation

Machine Learning: Scikit-learn, Regression, Classification, Ensemble Learning, Dimensionality Reduction, Clustering, Cross-Validation

Deep Learning & GenAI: PyTorch, Transformers, Hugging Face, LLMs, Generative AI, RAG, LangChain, Agentic AI

Data Engineering: ETL, Data Modeling, Apache Spark, Vector Databases

Visualization & Deployment: Power BI, Tableau, Matplotlib, Seaborn, Streamlit, Flask, MLflow, Docker, AWS, Git

INTERNSHIP EXPERIENCE

Research Intern

Jan 2026 – Apr 2026

Indian Institute of Technology Roorkee

Remote, India

- Designed and validated end-to-end workflows for a secure file transfer platform, identifying system defects and reliability issues across distributed systems while supporting production deployment.
- Tested automated recovery processes through negative and edge-case scenarios, enabling **80% faster file recovery** with **100% traceable audit logs**, improving system reliability and compliance.

Blockchain and AI Intern

May 2025 – Jul 2025

Defence Research and Development Organisation (DRDO)

On-site, India

- Conducted ROI analysis and business process optimization across **3+ security pipelines**, evaluating smart-contract deployment using Hardhat and OpenZeppelin and reducing access-control overhead by **35%**.
- Worked with **4 cross-functional teams** to translate business requirements into scalable technology solutions, defining KPIs and developing decentralized-identity ETL pipelines to support data engineering initiatives across multi-geography engagements.

PROJECTS

dhruvprep — ML Data Preprocessing Library | [PyPI](#) / [GitHub](#)

2024

- Developed and published a Python preprocessing library with **6+ modular utilities** for data quality checks, feature scaling, categorical encoding, and multicollinearity detection.
- Built reusable preprocessing pipelines that streamlined data preparation by 60–70% across datasets containing **5K+ records**.

Generative Language Model — Built from Scratch (15M Parameters) | [GitHub](#)

2024

- Architected and trained a **15M-parameter decoder-only Transformer** from scratch using PyTorch, implementing the model architecture, training pipeline, and evaluation workflow.
- Achieved a final training loss of **1.24**, representing a **40% reduction over 10 epochs**, while applying validation and QA checkpoints throughout model development.

CERTIFICATIONS

Full Stack Generative and Agentic AI (Python) — Udemy

Mar 2026

AWS Knowledge: Cloud Essentials — Amazon Web Services

May 2024

LEADERSHIP & ACHIEVEMENTS

Co-Leader, Corporate Club

2024 – 2025

Christ University, Delhi, India

- Led 11-member cross-functional team in a consulting-oriented environment, organizing 5+ corporate client engagement sessions impacting 200+ students through project implementation planning and industry-academia stakeholder management.
- Placed in Top 5 of 1,000+ teams at Smart India Hackathon 2024 (National Level); named Finalist at AMD Developer Hackathon, San Francisco, USA.
- Ranked Top 10 at GenAI Hackathon 2025 (GDG CGC Mohali); secured 3rd Place at Invictus '24, DTU.
